Montana Data Company's Backup to the Cloud
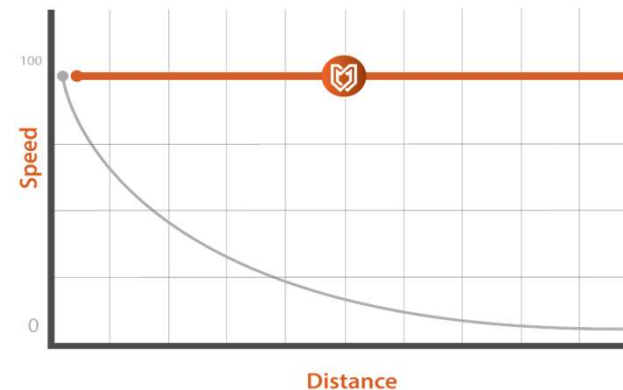

Why Montana Cloud Backup?

- You have a **complex / large production environment**
- Cost is a factor so a "**Pay as you Use**" all-in model with built in Support and Licensing costs makes sense
- **Transfer Data at up to 900x Faster** than standard TCP / IP
- The following are merely "Copies" exposing you to **Ransomware**
    - DropBox / OneDrive / Google Docs / …
- Microsoft only offers **Retention** on O365
    - Limited to 14 to 30 days

Montana Data Company's Solution

- **Enterprise-Grade**, Best of Breed
    - Highly scalable yet still easily deployable
- **Tier-4 Data Center** with Data Backed Up to Disk
- **DR as a Service** also an option
- **Utility Billing**
    - Pay as you Use – no upfront Bundle / Licensing Costs
- **Montana Backup Cloud Portal**
    - **Unified view** of entire environment
    - **Daily Reporting** including Financials
        - By Division / Location
        - Even to individual User-level
- **Access to Data 24 / 7 / 365**
    - Self-service: -
        - Restore Data
        - Add new end-points
- Technology is recognized by Gartner as an **Industry Leader**
- Aligned with **POPIA**
